

# Sovereign Automotive Cookie Notice

## What Are Cookies?

Cookies are small text files that are placed on your computer or device by websites you visit. They are widely used in order to make websites work, or work more efficiently, as well as to provide information to the owners of the site. Some cookies will track your use of websites and can be used for marketing purposes.

## What Cookies are installed via the Sovereign Automotive Website?

### Cookie Types

There are many different types of cookies, only Essential cookies are used for the Sovereign Automotive Website:

Essential - These are required to enable the website to work

### Cookie Default Expiration Time

Cookies can be set to remain on your device, they may be for the duration of your visit or deleted after a specified time.

Session Cookies – these cookies are installed and removed when you close the website.

Persistent Cookies – these cookies are installed on your device for a specified time period and are used to remember preferences you've set e.g. login details etc.

**No Marketing or tracking cookies** (e.g. Google Analytics) are stored on your device via the Sovereign Automotive Website.

The table below identifies the cookies installed via the Sovereign Automotive Website, their type, how long they remain on your system and what they are used for:

### Cookies:

Cookie Type	Application	Cookie Name	Default Expiration time	Domain	Description
Essential	Social Intents (Web chat facility)	AWSALB	Persistent (5 days)	<a href="http://www.socialintents.com">www.socialintents.com</a>	Assists Load Balancing i.e. directs internet traffic to the most appropriate server.
		AWSALBCORS	Persistent (5 days)	<a href="http://www.socialintents.com">www.socialintents.com</a>	Assists Load Balancing i.e. directs internet traffic to most appropriate server.

	JSESSIONID	Session (removed when session complete)	<a href="http://www.socialintents.com">www.socialintents.com</a>	Used to identify your session on the web server. The cookie lets the server know which page components the browser has already been sent, so the server doesn't waste time re-sending them helping individual web pages to load faster and improve navigation.
	Socialintents_vs_chat_#	Session (removed when session complete)	<a href="http://www.socialintents.com">www.socialintents.com</a>	Identifies the visitor across device and visit to enable user to efficiently use the chat box
Azure	TiPMix	1 hour	<a href="http://www.sovereignautomotive.co.uk">www.sovereignautomotive.co.uk</a>	Used to determine web server i.e. directs internet traffic to the most appropriate server
	x-ms-routing-name	1 hour	<a href="http://www.sovereignautomotive.co.uk">www.sovereignautomotive.co.uk</a>	Used to handle internet traffic
	TiPMix	1 hour	<a href="http://www.kindertons.co.uk">www.kindertons.co.uk</a>	Used to determine web server i.e. directs internet traffic to the most appropriate server
	x-ms-routing-name	1 hour	<a href="http://www.kindertons.co.uk">www.kindertons.co.uk</a>	Used to handle internet traffic
Onetrust	OptanonConsent	Persistent (1Year)	<a href="http://www.sovereignautomotive.co.uk">www.sovereignautomotive.co.uk</a>	Used to check the status of cookie acceptance by the end user
	OptanonAlertBoxClosed	Persistent (1Year)	<a href="http://www.sovereignautomotive.co.uk">www.sovereignautomotive.co.uk</a>	Used to identify if the cookie acceptance pop-up needs to be displayed dependent on the end-users previous acceptance
	ASP.NET_SessionId	Session (removed when session complete)	<a href="http://www.sovereignautomotive.co.uk">www.sovereignautomotive.co.uk</a>	Used to identify your session on the web server. The cookie lets the server know which page components the browser has already been sent, so the server doesn't waste time re-sending them helping individual web pages to load faster and improve navigation.
	_RequestVerificationToken	Session (removed when session complete)	<a href="http://www.sovereignautomotive.co.uk">www.sovereignautomotive.co.uk</a>	Anti-forgery cookie used by web applications designed to stop unauthorised posting of content to the website (Cross-Site Request Forger). No user information is held.
